

## Grow Group Session 2

1. Review the Yardsticks Chart and the Child Development in a Nutshell Chart together.
2. Discuss:

There will be three rounds of discussion with a different question for each round. You will each respond to the question, not the previous responses.

- **Round #1 Question:** Based on the physical, cognitive, and social/emotional traits listed for this age, what spiritual capacities or needs might naturally emerge?
  - **Round #2 Question:** What misconceptions do we sometimes have about what children at this age can or cannot understand spiritually?
  - **Round #3 Question:** If we were to add a “spiritual development” column for this age, what would we want ministry leaders to know most?
3. Organize a list for the spiritual development column, based on an assigned age group.
